

# Prepared for the Unexpected

## Durabook

## Ruggedized Notebooks & Tablets

Durabook is a leading manufacturer of rugged computing solutions, including the Durabook line of laptops, mobile tablets and all-in-one computers. The DURABOOK brand is designed, manufactured and tested in-house to assure maximum quality and reliability. These purpose-built, cost-effective and ruggedized laptops, tablets, and all-in-one PCs are high-performance solutions that increase productivity, drive a clear return on investment and deliver a low total cost of ownership.

### Product Line

#### **U11 Tablet:** *All Inclusive for All Purposes*

Choosing between mutually exclusive I/O interfaces and devices is a thing of the past. The Durabook U11 rugged tablet has it all. Within its extremely compact and rugged exterior, the U11 packs an unprecedented number of productivity features and generous space for further expansion.

#### **Z14I Laptop:** *As Strong As It Gets. Boundless Customization.*

Combined with the latest 8th Generation Intel® Core™ processor and graphics capabilities, the Z14I rugged laptop can handle data intensive tasks at speed. It has been built to withstand even the harshest of environments. Its IP65 rating, protecting against dust and water ingress, MIL-STD 810G certification and resistance up to six feet drop make the Z14I more rugged than other comparable devices on the market. The device has also been tested for explosive atmosphere, solar radiation, salt fog, and fungus resistance, which goes beyond testing standards compared to other rugged devices in its class.

#### **S14I Laptop:** *One Step Above Semi Rugged*

The new Durabook S14I features 8th Generation Intel® CPUs and class-leading drop spec/IP ratings, pushing semi-rugged devices to a whole new level. The S14I is engineered to combine military-grade durability, field-worker functionality, desktop performance, and long battery life for non-stop use. For workers in today's challenging and versatile working environments, the S14I rugged laptop is truly in a class of its own.

#### **S15AB Laptop:** *Thinnest and Lightest in its Class*

Durabook S15AB weighing just 5.73 lbs and only 1.16" in height, is designed with an ergonomic hard handle for easy carrying; it comes together with the option of a long-life battery that can operate up to 13 hours without any downtime. The S15AB offers the best in class performance, mobility and durability compares to the commercial and rugged laptop in the market. Featuring a FHD 15.6" display, 8th Generation Intel® processor and certified with IP5X and MIL-STD-810G, the S15AB is the laptop ideal for workers in both indoor and outdoor environments.

### **R11 Tablet:** *Thin and Light with Enterprise-Class Performance*

Every inch and detail of the Durabook R11 rugged tablet is designed to maximize the efficiency of professional field workers. The Durabook R11 is only 0.79" in height and weighs just 2.65 lbs, making it the world's most compact tablet in the fully-rugged class. Adding to its appeal is a smooth, streamlined exterior that complements its tough image.

### **R11L Tablet:** *Ultra Affordable With Feature-Rich Functionality*

The Durabook R11L rugged tablet is built to meet the needs of workers in professions ranging from retail and hospitality to warehousing, logistics and field service. This tablet features a brilliant 11.6" capacitive touchscreen and high-performance, energy-smart Intel® processor for efficient use on the move. The R11L also offers an optional barcode reader, optional RFID reader, back camera, and optional smart card reader for seamless data-capture in a slim, light and durable device.

### **E-Tool Cabinet:** *Secure, Network-Ready, Storage Cabinet*

Designed for all customers using multiple laptops and/or tablets, the Durabook E-Tool Cabinet stores, charges, and deploys up to 10 devices in a mobile or stationary solution. Each device is secured in its own lockable drawer for an added layer of security. The E-Tool Cabinet can be configured with a network switch and comes standard with RJ-45 and AC power connections to each drawer. For extended network connectivity, an optional WiFi package can be added to the cabinet.
